ROYAL ASTE HAMS High grade & Up-to-Date. COAST FRANK BPETERSON & CO FAMILIANCE

REWARDING THE ADMIRALS.

Washington, Feb. 14.-The President today sent the following nominations to the Senate :

Navy-Rear Admirals to be advanced in rank from the eleventh day of February,

William T. Sampson, five numbers to take rank next after Rear Admiral John A. Howell.

Winfield Scott Schley, three numbers, to take rank next after Rear Admiral Sampson when advanced.

Ventura Case Investigated.

San Francisco, Feb. 12.-The accident on board the steamship Ventura on January 23, in which five men were killed and five injured by the bursting of a steam pipe, was investigated yesterday afternoon by Captains Bolles and Bulger, local United States inspectors of steam vessels. The principal witnesses were S. N. Haines, chief engineer; T. W. Lawrence, first assistant: J. V. Ainsworth, second assistant, and M. McGinn, representing the builders. The chief engineer and his assistants told about the breaking of the steam pipe, which they ascribed to imperfect construction on the part of the builders. There was 165 pounds of steam pressure at the time of the frac-There was absolutely no unskillfulness in the handling of the ennine, they said. Mr. McGinn said that he did not believe in the theory of faulty construction, but when he was planted down to details admitted that he did not know anything about the cause of the accident. The inspectors will render a decision

next week.

Mobican Coming.

San Francisco, Feb. 13.-The United States training ship Mohican is down from Mare Island, and while to all appearances she is the same old-timer, nevertheles there is not an old timber left in her, and the sloop-of-war is now as good as the day she was launched. Bark-rigged and presenting an appearance that recalls the Hartford and other famous ships of the old days, she is one of the most picturesque vessels in the bay.

The Mohican will take aboard about

250 apprentices here, and when everything is ready will start on a cruise to the South ern Seas. She will call at Santa Barbara, San Diego, Magdalena Bay and Honolulu. On her return to San Francisco she will go north, calling at all the Puget Sound ports and stopping on the Columbia River on her way home. Most of the voyaging will be done under sail, but the Mohican has steam power that is calculated to drive her at the rate of nine knots an

Work on Shamrock to be Pushed.

Glasgow, February 11.-Owing to a serious protest upon the part of George L. Watson at the delay in the con truction of the Shamrock II, the Dennys have put all their available workmen on the job, and the building of the America's cup challenger will be pushed night and day without pause. Watson insists that she must be launched during the last week in March so that his elaborate plans for trial races can be carried out.

King Bros. beg to announce Will take a Limited Number of that they will not hold themselves responsible for framing and other orders not called for within thirty days.

Parties interested are requested to call at once and arrange For particulars apply to.... for delivery.
